
Aluminum Heater Radiator

Thank you for browsing our website! We Aumax are a Chinese aluminum heater radiator manufacturer, specializing in a wide range of home heating equipment.

Our aluminum heater radiator can instantly deliver comfortable warmth where they are needed most. Usually, it is used in places such as schools, residences, hotels and hospitals.

Features

1. Aumax aluminum heater radiator is reliable, energy efficient, eco friendly, and provides high thermal output.
2. Our heater radiator is made of international standard ADC12 aluminum, which offers good conductivity, high stability, strong anti-friction and anti-erosion
3. Central melting furnace, 2Ton/h
4. 730o C liquid aluminum, die cast by 800T die casting machine in one step
5. International standard color RAL 9016
6. Concealed water channel design can protect the elderly and children from burn
7. 300-metre automatic electrophoresis painting line, electrophoretic paint from Germany BASF
8. Pre-treatment liquid like degreasing and passivating liquid is purchased from Germany HANKEL
9. Our aluminum heater radiator has undergone three times of 24bars pressure test, ensuring no leakage.
10. The thickness of the water channel reaches 2.2mm

To assist you in choosing our aluminum heater radiators, here we give you main technical parameters of our products.

Model	Dimension H*L*D(mm)	Central Distance(mm)	Water Capacity(L)	Working Pressure (M)	Weight (Kg)	Thermal Output $\Delta t=64.5^{\circ}\text{C}(w)$
UR1001	582*80*85	500	0.36	1.6	1.39	196
UR1002	585*80*100	500	0.37	1.6	1.36	189
UR1003	685*80*90	600	0.39	1.6	1.57	216
UR1004	582*80*98	500	0.38	1.6	1.46	191
UR1005	585*80*100	500	0.37	1.6	1.34	189
UR1006	380*80*85	300	0.27	1.6	1.10	140
UR1008	432*80*85	350	0.31	1.6	1.12	158

In addition to aluminum heater radiator, We Aumax also offer bimetal water heating radiator, towel warmer, electric radiator, etc., to accommodate any need you may have. Our products are CE certified, meet EN-442 standard and are accompanied by a five-year warranty, so customers can feel secure in using them. In addition, OEM service and free samples are also available. As a result, our products like aluminum radiator and electric heater are very popular with customers from Russia, Italy, Spain, Britain, France, Germany, Canada, among other countries.

Please contact us if you are interested in our home heating equipment. We look forward to working with you.
