
Bimetal Water Heating Radiator

Welcome to Aumax website! We are a specialized bimetal water heating radiator, located in China.

As shown in the pictures, our bimetal radiator comes in various sizes, so you can choose them according to your room space. Thanks to their consistent quality and reliability, our bimetal water heating radiators are widely used for heating rooms in places such as residences, schools, hotels and hospitals.

Features

1. Aumax bimetal water heating radiator is safe, energy efficient, environmentally friendly, and offers good heat dissipation and outstanding thermal output.
2. It is created by international standard ADC12 aluminum, with good conductivity, high stability, and great erosion resistance.
3. Superior steel water tube together with inner anti-corrosion treatment ensures high pressure resistance and corrosion resistance.
4. Perfect surface color of our bimetal radiator is achieved due to automatic pretreatment procedure and electrophoresis painting line.
5. Central distance can be from 300mm to 1800mm, to suit different requirements.

Compared with similar products, our bimetal water heating radiators have many advantages, for example

1. Our bimetal radiators whose heights range 300 to 600mm are die cast by 800T die casting machine in one step, while those with heights ranging from 1000 to 1800 mm are made using advanced plug-in technology.
2. State-of-the-art electrophoresis technology from Italy
3. The electrophoretic paint is imported from Germany BASF.
4. High quality, low-carbon steel tube (#Q235), which is corrosion resistant due to the use of anti-corrosion paint #TY3318.
5. Three times of pressure testing, the pressure is 24bars.

Technical Parameters of Bimetal Water Heating Radiator

Model	Dimension H*L*D(mm)	Central Distance(mm)	Water Capacity(L)	Working Pressure (M)	Weight (Kg)	Thermal Output $\Delta t=64.5^{\circ}\text{C}(w)$
UR7001	566*80*85	500	0.36	1.6	2.08	178

If you are looking for an aluminum heater radiator, towel warmer or electric heater, in addition to bimetal radiator, We Aumax can also fulfill your needs. As a result of our continued focus on product quality and environmental protection, we have received ISO9001:2000, ISO14001:2004 certificates, and our products are CE, ROHS certified. Hence, you can feel at ease in purchasing our home heating equipment.

Our company is located in Qidong City, Jiangsu Province, near the port city Shanghai. Here we enjoy many forms of convenient transportation, which facilitates the transporting of goods and reduces the cost of shipping for our customers.

If you are in need of our products, please don't hesitate to contact us!
