
[Stainless Steel Aluminum Composite Radiator](#)

Thanks for your interest in our website! We Aumax are a major stainless steel aluminum composite radiator manufacturer, based in China.

The product shown on this page is our stainless steel aluminum composite radiator, which is both aesthetic and functional. You can count on Aumax radiator to keep you warmth in cold winter.

Features

1. Our stainless steel aluminum composite radiator features high thermal output, low energy consumption and environmental friendliness.
2. Use plug-in technology, instead of traditional welding technology
3. Quality stainless steel water tube provides long service life, which is the same as that of heating system.
4. Thanks to automatic pretreatment procedure and electrophoresis painting line, the surface color of our radiator is perfect.
5. Central distance ranges from 500mm to 1800mm.

In comparison with like products, Aumax stainless steel aluminum composite radiator offers the following advantages

1. Our radiator is made of high quality stainless steel #S304
2. It has undergone three times of pressure testing at 24 bars
3. Premium quality electrophoresis paint from Germany BASF.
4. 300-meter electrophoresis painting line from Italy

Our stainless steel aluminum composite radiators are available in 7 models. As the size, central distance and thermal output of some products are different, so please read the parameter table carefully.

Model	Dimension H*L*D(mm)	Central Distance(mm)	Working Pressure (M)	Thermal Output $\Delta t=64.5^{\circ}\text{C}(w)$
UR2001-500	566*80*85	500	1.6	182
UR2001-600	666*80*85	600	1.6	190
UR2001-800	866*80*85	800	1.6	255
UR2001-1000	1066*80*85	1000	1.6	284
UR2001-1200	1266*80*85	1200	1.6	311
UR2001-1600	1666*80*85	1600	1.6	411
UR2001-1800	1866*80*85	1800	1.6	460

In order to meet each customer's needs, We Aumax offer a wide variety of products, such as water heating radiator, electric heater, towel warmer, and so on. To offer customers better quality products, we purchase superior raw material, constantly introduce advanced equipment and make use of the latest technology. Due to our tireless efforts, our products are high quality, and are CE, ROHS certified.

In addition to quality products, we also offer customers attentive service. Our products come with a five-year warranty. If any manufacturer's defect or material flaw is found within the warranty period, we will repair or replace your products, free of charge. OEM service and free samples are also available at Aumax.

If you have a need for our home heating equipment, please contact us immediately. We are certain you will be happy with our products and service.
