
[Towel Warmer](#)

Do you want to cuddle up with a nice warm fresh dry towel after every shower or bath? If YES, our towel warmer is a perfect product for you. As a specialized towel warmer manufacturer in China, We Aumax can offer you a wide range of towel warmers, which are not only very functional but also can add a contemporary style to your bathroom.

Aumax towel warmer is mainly used to provide warm towels for use after a shower. In addition, it can also be used for drying delicates or bathing suits. Moreover, our towel warmer is useful for reducing dampness in poorly ventilated bathroom.

Features

1. Our towel warmer is created by international standard steel, with outstanding performance, good conductivity, great corrosion resistance and stability.
2. It is easy to install, and can be placed in any corner in the house.
3. Automatic pretreatment procedure, coupled with electrophoresis painting line, helps our towel warmer to achieve perfect surface color.
4. Our towel warmer is energy efficient and can save you money on additional loads of laundry by keeping your towels dry and fresh.

Technical Parameters of Towel Warmer

Model	Dimension H*L*D(mm)	Central Distance(mm)	Rails	Working Pressure (M)	Thermal Output $\Delta t=64.5^{\circ}\text{C}(w)$
UR5001-600/850	850*600*35	556	17	1.6	550
UR5001-600/1200	1200*600*35	556	22	1.6	780
UR5001-600/1500	1500*600*35	556	28	1.6	960
UR5001-600/1800	1800*600*35	556	34	1.6	1200
